CLAIM DETERMINATION

STATUS: DENIED

Denial Reason Code: CO-197
Denial Category: Prior Authorization/Precertification Absent

REASON FOR DENIAL:

Your claim for Magnetic Resonance Imaging of the right knee (CPT 73721) has been denied. Under AcmeCare Policy ACME-MRI-2024-002, all non-emergency lower extremity MRI requests require prior authorization from AcmeCare Utilization Review before the imaging study is performed.

Our records indicate that no Prior Authorization Request (Form PA-200) was submitted for this service prior to the date of service.

If you disagree with this determination, you have the right to appeal within 180 days of this notice.

Clinical notes were received from the provider's office; however, submission of clinical notes alone does not constitute a prior authorization request.

Additionally, AcmeCare policy requires documentation of a minimum 6 weeks (42 days) of conservative physical therapy prior to authorization of diagnostic imaging for knee pain. The submitted documentation indicates a physical therapy course of approximately 5 weeks and 5 sessions, which does not meet the minimum requirement.

The claim is denied under Claim Adjustment Reason Code CO-197: Precertification/authorization/notification absent.

YOUR RIGHT TO APPEAL
