Session Number: 21 of calendar year 2024
Billed Amount: \$200.00
Allowed Amount: \$0.00
Patient Responsibility: \$200.00

CLAIM DETERMINATION

STATUS: DENIED

Denial Reason Code: CO-50
Denial Category: Medical Necessity Not Established

REASON FOR DENIAL:

Your claim for Psychotherapy (CPT 90837), session 21 of calendar year 2024, has been denied. Under AcmeCare Policy ACME-MH-2024-003, outpatient psychotherapy sessions 1 through 20 per calendar year are authorized without additional clinical review. Sessions beyond 20 per calendar year require documented medical necessity justification submitted for clinical review.

*This is not a bill. This is an Explanation of Benefits (EOB) for your records.
If you disagree with this determination, you have the right to appeal within 180 days of this notice.*

Phone: 1-800-555-ACME (2263) | Fax: 1-800-555-2264

A medical necessity justification package was received from your provider on September 10, 2024. After clinical review, AcmeCare's Utilization Review Committee has determined that the submitted documentation does not establish sufficient medical necessity for continuation of psychotherapy services beyond the standard 20-session annual benefit.

The claim is denied under Claim Adjustment Reason Code CO-50: These are non-covered services because this is not deemed a 'medical necessity' by the payer.

CLINICAL REVIEW NOTES

The Utilization Review Committee notes the following:

- The patient's most recent PHQ-9 score of 12 indicates moderate depression, which represents improvement from the baseline score of 18.
- The committee acknowledges the patient's progress but notes that the current PHQ-9 score is close to the mild range (score < 10) and questions whether continued intensive psychotherapy is necessary versus alternative lower-intensity interventions.
- The standard 20-session benefit is designed to provide an adequate course of acute-phase treatment for most patients.

YOUR RIGHT TO APPEAL

If you disagree with this determination, you or your authorized representative may file an appeal within 180 calendar days from the date of this notice. For behavioral health denials based on medical necessity, your appeal may include:

1. A written statement explaining why continued treatment is medically necessary
2. Updated clinical documentation including recent symptom assessments
3. Peer-reviewed literature supporting the clinical rationale for continued treatment
4. Any information relevant to the Mental Health Parity and Addiction Equity Act (MHPAEA) if you believe this denial involves a treatment limitation that is more restrictive than limitations applied to comparable medical/surgical benefits
5. A copy of this Explanation of Benefits
